

The new Dell E6400 is now available

Technology plays an important role in a quality education and enables students to fulfil course and research requirements. To ensure we are offering the latest and most reliable hardware available The Blue Mountains International Hotel Management School and Australian International Hotel School are pleased to announce that the latest E6400 is available for purchase. **The E6400 is the latest business grade machine on the market and includes a range of improvements and additional memory.**

Both laptops package options are available to new and current students and they should be aware of the **additional benefits received if purchasing from the School**. The package is designed to ensure students have everything they need to get the most out of their studies and not have the burden of additional cost of add-ons or extras. A comprehensive service package is included with both laptops:

- Windows Operating System
- Microsoft Office 2007
- Laptop case
- 3 year next day repair or replacement warranty including accidental breakage
- 3 year virus protection and upgrades
- 3 year spam and malware protection
- Ongoing off-site or on-site technical support from expert IT engineers

The above packages are only available if purchased from the School. Note students may bring their own laptop if preferred but please note that these laptops will **NOT**:

- be entitled to any of the above package benefits or extras;
- be entitled to any on campus IT support or service; or
- have access to the School's wired network, terminal server, printing, file shares or email via their laptop.

Students supplying their own laptops will also be required to provide their own anti-virus software and purchase upgrades to meet the School's IT regulations.

If you are a new student please place or order two weeks before you arrive, this means we can be sure it is ready for you when you start. Just inform us of the laptop you require. Current students who are interested in one of the packages can contact the IT department to arrange their purchase.

If an advertised laptop is not available then it will be replaced with a higher grade of laptop.
